Organizations:
Honduras Primero
LOGIC Elegance

OBJECTIVE: Establish working alliances with organizations interested in advancing Honduras and her good people through local manufacturing, education, financial support, technological assistance and artistic appreciation.

HONDURAN ACTIVITIES: Provided technical support for seafood processing plants in Roatán and Choluteca (1997-98). Including: 1) data acquisition/automation design, 2) computer networking, 3) inventory control, 4) personnel ID/payroll and 5) retail sales systems. After this work, I assisted the office of Science & Technology in issues regarding: 1) the First Lady's **Profuturo Project** for a children's museum, 2) Y2K, 3) meteorology, 4) the first two solar villages in Central America, and 5) official ministerial communications. Next I enjoyed helping **Sagrada Familia** (the largest Honduran savings cooperative) with their city wide computer network and also defense of their image. This was during the time when exaggerated scandals resulted in a run on this institution. Additionally, I have regularly repaired equipment for missions, schools, and churches; while always working to bringing in computers, medicine, medical equipment and clothes.

SPECIALTIES: My consulting work since **HP** primarily concerned the Internet. This involves all the necessary skills to utilize the mayor resources available through this medium, such as: proficiency in WEB page design, Java programming and trouble shooting the major protocols (IE. pop3 smtp, html, ftp, telnet, & ppp). Also knowledgeable regarding the latest developments in encryption, electronic commerce, and privacy.

AFFILIATES: The following organizations all share a fervent interest in finding creative ways to free people to realize their full potential; and currently have an working relationship with **Honduras Primero** or have expressed such an interest:

The **Kiwanis** and **Rotary Club** of Missouri, **Care-AIR** (of **Continental Airlines**), **IBM**, **Chiquita** shipping division, **Asociación Hondureña Contra el Cáncer**, and **Proyecto Centro Cristiano Agape**, **ADRA/DAMA** (of the **Seven Day Adventist**).

SPECIAL POSITION: On board of directors for **CIM's FACE TO FACE** computer commerce venture. We control original Internet commerce patents using interactive "tellers" to assist users (see **United States Patent** 6,055,514 [Wren - April 25, 2000] System for marketing foods and services utilizing computerized central and remote facilities and also US Application Ser. No. 08/668,561 & No. 08/650,834).

FORMAL EDUCATION: Washington University of St. Louis
Honors Graduate, Bachelor of Science in Mathematics December 1977.

PREVIOUS WORK EXPERIENCE

April 1976 through 1992: System Engineer for **Hewlett Packard** in St. Louis, Missouri.

Managed several successful **HP** projects including:

- 1) The "Idea!Center" facility where a representative sample of **HP's** best computer solutions were showcased, 2) mail sorting/tracking systems for **US Postal Service**,
 - 3) automated wire plating at **Bussman**, 4) custom graphic software for **Alcoa**,
 - 5) compressor certification at **Ingersol Rand**, and 6) engineered critical portions of **Southwestern Bell's** 'MultiLeaf' system for operator enhanced emergency services.
- Principal expertise in data-bases, networking, and data-acquisition applications.

Before 1976: Electronic Hardware Development and Repair in St. Louis, Missouri

- » **McDonnell Douglas:** Tested **F-15** electronics after identifying other design flaws.
- » **Barnes Hospital:** Invented modification to respirator units at hospital to facilitate 'weaning' process. As holder of first class FCC radio license, I maintained transmitter for paging system and devised encoder units to service pocket receivers. Prime contact for problems with biomedical equipment and training technicians.
- » **Muller Electric:** Managed all television in shop repairs, scheduled own hours.
- » **Southwestern Bell:** Youngest person to become a "qualified frame man" and thus held responsibility for the facility during weekends.
- » **St. Louis Police Department:** I issued tickets, dispatched cars from the central communications office, and directly served the board of police commissioners.
- » **RCA Factory Service** (television repair): Leader in support contract sales.

RELEVANT INTEREST: Music, Markets & Photography

- » Enjoy music composition as a midi song creator of several works.
- » Other interest and experience range among alternate monetary solutions & barter, electronic transaction security, and independent energy alternatives.
- » Ten years experience with options; developed math theory and analysis programs as both an investment vehicle and eloquent research tool. Specialized in discovering opportunities presented by pricing irregularities within and between option groups. Also interested in effects of political forces on global economics, especially regarding international monetary trends.
- » Extensive background in photography. Favor Kodachrome and T-Max films, but currently work more with digital photography and photos of Honduran children.

SUMMATION: left employment as a system engineer for Hewlett-Packard where I executed numerous technical projects for our clients. After periodic free-lance contracts I now apply my various interest and technical skills toward promoting Honduras & C.A..
